On

### **“Industry Expert Lecture- Finance in IT”**

The department of Computer Science and Engineering of Padm. Dr. V. B. Kolte College of Engineering, Malkapur (VBKCOE) conducted industry expert lecture on **“Finance in IT”** for the students of CSE on 25<sup>th</sup> Nov. 2022 at 11:00 AM. We conducted this activity to improve the knowledge of students in industrial point of view.

The resource person addressed students about the financial work in IT companies. It is the management, study and creation of money and investments. It can be categorized as public, corporate and personal finance. Social and behavioural finance are the recently identified subcategories of finance. Those professionals who have to make certain financial decisions are part of this industry. He also addressed about the portfolio of manager. Portfolio management is one of the most prestigious roles in the finance industry. He has to oversee institutional and retail client investments. They recommend personalized investment strategies and specific investment decisions to clients, and they usually have flexible power in executing those strategies to fulfill the client’s goals. It’s common for portfolio managers to specialize in specific asset classes, such as equities or fixed income. Or, a manager may be a specialist in certain types of stocks.

At the end of session students asked their queries. It was an interactive session and beneficial for students.
