Department of Computer Science and Engineering

Summary Report

On

“Guest lecture on Block chain Fundamental”

The department of Computer Science and Engineering of Padm. Dr. V. B. Kolte College of Engineering, Malkapur (VBKCOE) conducted guest lecture on **“Block chain fundamental”** for final year students on 19th October 2022 at 11:00 AM. We conduct this activity to improve the knowledge of students in industrial point of view.

The Block chain technology describes basics of block chain technology. The speaker explained the importance of it; that is Blockchain is ideal for delivering that information because it provides immediate, shared and completely transparent information stored on an immutable ledger that can be accessed only by permission network members.

The guest addressed students about the key elements of block chain technology along with the working of it. He also made aware about the block chain network, block chain security, benefits and application of block chain technology.

The session was interactive and students participated actively in it by asking their doubts and queries. At the end of the session Prof. G. V. Patil delivered vote of thanks toward guest.
