About Department

VISION

Become a regional leader in providing high quality education and research in area of computer and information technology.

MISSION

To develop human resource with sound knowledge, theory and practical in the discipline of Computer and information technology and the ability to apply the knowledge to the benefit of the society.

Mr. Anand Arvind Maha
Head Of Department
Computer Science And Engineering

Department of computer science & Engineering is growing department with the undying efforts of teaching & Technical staff members. The department was established in the year 2012. We are focusing on imparting the core science underlying the computing aspects. So that student copes easily with today's modern technologies. We also try to bridge the theory – practical gap by applying continuous efforts in teaching & learning. The methods of imparting education to students make them self capable for career in IT industry, Research & entrepreneurship.

PROGRAMME EDUCATIONAL OBJECTIVES (PEO's)

- ➊ PEO1 - Flourish a positive attitude for lifelong learning, higher education and succeed in industry.
- ➋ PEO2 – Acquire sufficient knowledge of computer science & engineering to identify & solve complex engineering, social, and real world problems.
- ➌ PEO3 – Develop ethics, soft skills and leadership qualities for excellence in professional career.

- ✿ PEO4 - Ensuring higher education, research or entrepreneurship.
- ✿ PEO5 - Commit in professional development and adapt to emerging technologies.

PROGRAMME OUTCOMES (PO's)

- ✿ PO 1. Use of basic knowledge to solve the Computer Science & Engineering problem using basics of mathematics, sciences and basic engineering.
- ✿ PO 2. Use of specified computer technology to solve core computer science & Engineering related problem.
- ✿ PO 3. Use of experiments and practices to solve dynamic Computer science & engineering problems.
- ✿ PO 4. Apply specific Computer technologies and tools with an understanding of the limitations.
- ✿ PO 5. Assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to practice in field of Computer engineering.
- ✿ PO 6. Apply Computer engineering solutions also for sustainable development practices in societal and environmental contexts and demonstrate the knowledge and need for sustainable development.
- ✿ PO 7. Apply ethical principles for commitment to professional ethics, responsibilities and norms of the practice also in the field of Computer engineering.
- ✿ PO 8. Use of Skills in diverse / multidisciplinary environments as a leader and team member in teams.
- ✿ PO 9. Communicate effectively to express ideas in oral and written form.
- ✿ PO 10. Engage in independent and life-long learning activities in the context of technological changes in the Computer engineering field and allied industry.
